ENGINEER – Mr. Damon – Absent

Engineer's Report provided by Mr. Damon and read by Mr. Razzi

Summary of Engineering Services for the past month:

- 5 & 7 E. Ashland Avenue – Reviewed plan records, sewer vent video and made a site visit to 5 & 7 E. Ashland avenue. Survey records indicate the dwellings were likely built in 1927. The video shows dye entering the vent from a void in the concrete sidewalk. A utility trench in front of the dwellings was observed to have settled slightly. It is my professional opinion that the issues occurring on the private property are not related to the street and settled utility trench.
- Prepared a review letter for a land development project located at 50 S. MacDade Blvd.
- Delivery of the Lamp Post's for the MacDade Blvd. CDBG Project has been delayed.

SOLICITOR – No report.

PRESIDENT PFAFF – Old / New business
